Contex SD One MF delivers simplicity to the MFP

Improving the original
Double-sided LED light inside the scanner eliminates any shadows on the scan even if the original is in poor condition.

Workflow optimization
Annotate directly into the scanned image then save it to your preferred file. SD One MF creates a new workflow for your scanning environment.

SD One MF is compatible with leading large format printers. See the full list of supported printers in the Release Notes for SD One MF at **contex.com/support/software-sdonemf/**
