

HD Apeiron/42

3D SURFACE EFFECT

The multiple lamp positions of HD Apeiron/42 paired with Nextimage Apeiron software give you an option to emphasize even the finest surface details in your scanned image. Slide between -100 and +100 for a desired degree of 3D surface effect. Effects above 0 mimicks an original hanging on a wall and lit from above.

+100

Maximum 3D surface effect for maximum texture and surface emphasis

+50

Subtly emphasized details

0

Flat appearance

The scans were made with both lamp levers down.
